

### What is ETHOS?

ETHOS is the European Typology of Homelessness and Housing Exclusion. It was developed by FEANTSA as a transnational framework definition for policy and practice purposes. It provides a shared language for transnational exchange. It does not attempt to harmonise national definitions of homelessness in Europe.

ETHOS classifies living situations that constitute homelessness or housing exclusion. ETHOS identifies 4 main categories of living situation: Rooflessness, Houselessness, Insecure Housing and Inadequate Housing. These conceptual categories are divided into 13 operational categories that can be used for different policy purposes, such as mapping the problem of homelessness, as well as developing, monitoring and evaluating policies.
